

## **Additional Cultivars to Expand an Evaluation of Dwarf Crape Myrtles**

Gary W. Knox  
North Florida Research and Education Center  
Route 4, Box 4092  
Monticello FL 32344

This FNGA Endowment Award allowed me to expand our collection of dwarf crape myrtles to 27 cultivars. Growers, landscapers and other green industry personnel are invited to attend an Open House at the North Florida Research and Education Center in Monticello on July 14, 1999. This Open House will involve commentary and guided tours through the collection of crape myrtles (*Lagerstroemia* species) as well as other collections of ornamentals, native plants, fruits, and nuts at the NFREC-Monticello.
